

A Brief History of FSMDB

The Federated States of Micronesia Development Bank (FSMDB) was established by the 1st Congress of the Federated States of Micronesia in 1979 through Public Law 1-37. Its operation began on October 1, 1980 but lending did not start until 1982. In 1994, the enabling law that created the bank was amended by PL-8-47 of the 8th Congress of the FSM to reorganize the structure of the bank to reflect that of a normal corporation. The bank current shareholders are the FSM National, Chuuk State and Kosrae State governments.

The purpose of the bank is primarily to provide loans for economic development of the FSM. The bank has its headquarters located in the State of Pohnpei, the Nation's Capital and three branch offices each in Yap, Chuuk and Kosrae.
